My journey in translation began with volunteering for global non-profits, grounded in a Bachelor's degree in Publishing from Oxford. I now serve enterprise clients including OpenAI, Mailchimp, Keeper Security, Lucid Software, SAP, and Equinix through Smartling and Mojito.

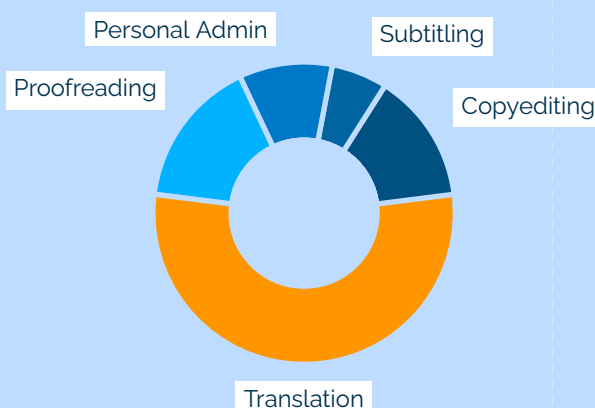

latest degree from
Oxford Brookes University

I specialise in technical UI localisation, AI platform content, SaaS documentation, and marketing transcreation for global technology enterprises targeting Brazilian audiences.

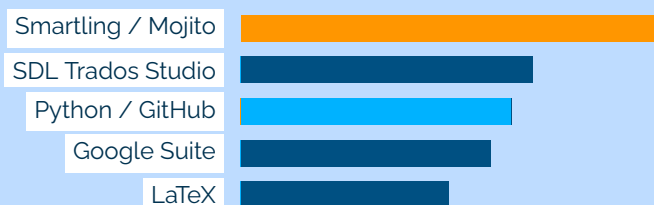

SKILLS AND TECHNOLOGIES

I combine deep linguistic expertise with proprietary workflow infrastructure, including Python tooling for glossary automation and Mojito skill files for enterprise accounts.

LANGUAGES

🇧🇷 Portuguese (native)
🇬🇧 English (C2)

I work across Smartling and Mojito for enterprise clients including OpenAI, Keeper Security, Lucid Software, and SAP, delivering UI strings, technical documentation, and marketing content.

I work with a specialised toolset built around enterprise localisation platforms and custom automation.

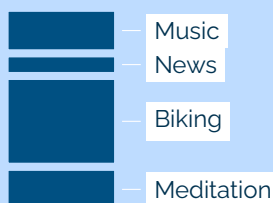

ACTIVITIES

of experience in the
Translation Industry

I enjoy cycling to help maintain a healthy work-life balance and escape the city's hustle and bustle.

EXPERIENCE AND EDUCATION
